

### Free at-home COVID-19 Tests for Vulnerable Communities

The Kansas Department of Health and Environment (KDHE) has partnered with Project Access Covid Tests (Project ACT) to offer free at-home COVID-19 tests directly to Kansans in vulnerable communities.

Visit [AccessCovidTests.org](https://AccessCovidTests.org), and enter your zip code on the home page (pictured below) to see if free, rapid, at-home COVID-19 test kits are available in your area.

The screenshot shows the Project ACT website interface. At the top, there is a dark green header with the Project ACT logo on the left, The Rockefeller Foundation logo in the center, and navigation links for 'English | Español' and 'ABOUT TESTING FAQ' on the right. The main content area features the headline 'Get your FREE at-home test kits!' in large teal text. Below this, a paragraph states: 'We are offering free, rapid, at-home COVID-19 test kits to residents of eligible communities while supplies last. Enter your zip code to see if tests are available in your area:'. A search input field with the placeholder text 'Enter zip code' and a magnifying glass icon is highlighted with a red dashed border. To the right of the text is a map of the United States with several states shaded in dark green, indicating eligible areas. The Project ACT logo is overlaid on the map.

If eligible, you can order a box of 5 free tests which will be delivered within 1-2 weeks.

Kansans who need help with ordering may call 1-866-534-3463 (1-866-KDHEINF), or please visit the FAQ page at [accesscovidtests.org/faq](https://accesscovidtests.org/faq).
