Quick Facts About Radon

1

RADON & LUNG CANCER

Radon-induced lung cancer is the #1 cause of death in homes. 1 in 4 Kansas homes has high levels of radon.

I'M BUYING A HOUSE. HOW DO I TEST FOR RADON?

2

Kansas law requires that all radon testing performed during real estate transactions be conducted by state-certified radon professionals. The list of certified professionals is at www.kansasradonprogram.org.

HOW DO I TEST MY HOME FOR RADON?

3

The only way to know the radon level anywhere is to test. Radon test kits can be purchased at many county extension offices or through K-State online at www.sosradon.org.
